SADs

Based on some input from you all on the last SAD call and with what is happening nationally on the President's Climate Action Plan, I have put a draft meeting agenda together for your review.

We plan to discuss the draft agenda on the call next week (6/18).

One item to call your attention to is our request that the states lead the second part of the 111(d) discussion by providing each state's analysis of its proposed goal and stakeholder discussions.

I have also reserved some time at the end of the meeting agenda for us to discuss how we can restructure future SAD and other R8 state/EPA periodic informational meetings (which I can explain more about on next week's call).

I look forward to talking to you all next week.

Carl
